

APR 19 1990

Mr. Larry Prouty  
Ashland Chemical Company  
3155 Fiberglass Road  
Kansas City, Kansas 66115

Dear Mr. Prouty:

RE: Visual Site Inspection (VSI) of Ashland Chemical Company  
3155 Fiberglass Road, Kansas City, Kansas  
EPA ID NO. KSD000203638

As a follow-up to my letter of April 4, 1990, one solid waste management unit (SWMU) has been tentatively identified by our contractor during the file review: the RCRA permitted drum storage area. Before touring the facility the contractor will be discussing the facility's solid waste management practices (points of generation, holding areas, transfer methods, etc.) in an attempt to identify SWMUs that were not identified during the file review. The contractor will then visually inspect any possible SWMUs identified and possibly some other areas of concern.

Enclosed are letters of introduction for the two contractor personnel who will be conducting the VSI, Otavio Silva and Patty Roberts of Ecology and Environment (E&E).

If you have any questions before the VSI, please call Mark Matthews at (913) 551-7635.

Sincerely yours,

Lyndell L. Harrington, P.E.  
Chief, Permits Section  
RCRA Branch  
Waste Management Division

cc: Paul Cahoon, KDHE  
Patty Roberts, E&E
